reprographics + digital printing + display print + scanning + specialist

document management + software solutions + support

future + thinking

Callprint have always employed a programme of continued investment into new equipment and software solutions with particular emphasizes in document management systems.

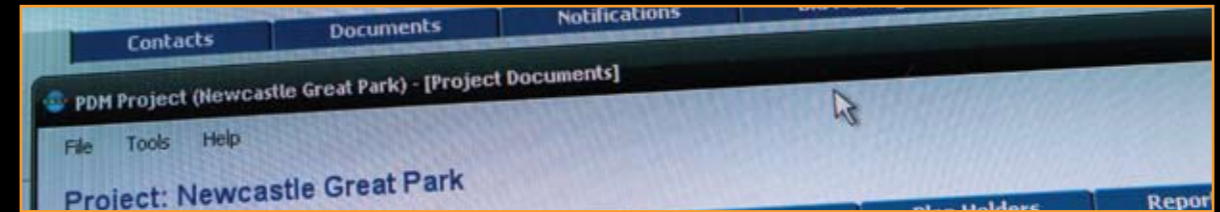

3To Web Services

3To is a web based print solution allowing preparation and procurement of collateral that leaves you to manage your workflow with ease. Remote working is not a problem as the application is online and provides;

- + Template editing and procurement
- + Template and image libraries
- + Variable data
- + Pricing and estimates online

PDM

Product Data Management is focused on capturing and maintaining information on products and services through its development and use.

- + Track and manage all changes to product related data
- + Accelerate return on investment with easy setup
- + Spend less time organising/tracking design data
- + Improve productivity through reuse of product design data

DFS / DFM

DFS is a high-end document preparation tool which offers a wide variety of methods to distribute information to its users.

- + Efficiently set up web portals that contain relevant information to a set of products or projects
- + Search for specific documents
- + Download the document online
- + Order delivery of printed documents

Sepialine

Sepialine tracks expenses - print, copy, scan, fax and more - for design, graphics, communications, reprographics and FM providers worldwide.

- + Application and device independent print capture
- + Tracks network and local printers
- + Extracts complete job statistics
- + Doesn't halt print jobs
